November 21, 2012

Security Advisory

Anti Govt. Elements (AGEs) continued their agenda by perpetrating violence in Afghanistan. Recent inputs indicate bearings on Indian interests in Kabul, Afghanistan in coming days. Anti Government Elements (AGEs) may carry out strikes in Kabul and elsewhere, to register their presence and to extend their influence to undermine the perception of security. Though Afghan security authorities have been taking all possible security measures attempting to neutralize the threat targeting Indian interests, it is requested that you should also take utmost precautions and be vigilant in the coming days.

2. In view of the above, all Indian nationals residing in Afghanistan are requested to maintain extra vigilance during the coming days. Keeping a safe distance from security convoys and typical government or security-related establishments, checkpoints and barriers is also reiterated, as they continue to remain a target of militants. Unnecessary movements in the city, including in crowded areas like restaurants, markets and Malls may also be avoided. Awareness of the prevailing security scenario via local visual/print media as well as through interaction with fellow colleagues is also suggested.

3. This advisory is being issued to keep the addressees conscious of security threats in the interest of abundant caution and not over-react in the form of panic, fear or indiscretion vis-a-vis the media.
