Security Advisory

Recent inputs suggest Anti Government Elements (AGEs) may target Indian interests and facilities near Eid, which is expected on 30th of August to register their presence, to regain their lost ground and to extend their influence to undermine the perception of security. Reportedly, they are also contemplating to conduct attacks targeting Government facilities, important personalities and sensitive locations, including crowded public places.

2. Recently, in last week, on August 19, 2011 multiple attack on British Consulate by AGEs, in which at least nine people, including one foreign national were killed, was a spectacular attempt to draw the world and domestic media attention. Possibilities of such types of attacks in coming days may not be ruled out.

3. All Indian citizens are advised to be cautious in the coming days in their movements, timings and patterns as well as when they are at residences. Keeping a safe distance from security convoys and typical government or security-related establishments, check-points and barriers is also reiterated, as they continue to be a target of Anti Government Elements (AGEs). It is also advised to avoid visiting public places like markets, hotels and malls. Awareness of the prevailing security scenario via local visual/print media as well as through interaction with fellow colleagues is also suggested.

4. This advisory is being issued only to make addressees cautious of the threats being perceived so far. There is no need for panic, indiscretion or over-reaction.
