**The Digital Transformation of Business –
Implications for Quality**

ABOUT THE SUMMIT

Don't miss our 24th CII National Quality Summit..... Come and listen to CEOs and thought leaders discuss rapid advances in transformative technologies. Digital Transformation is becoming a key strategic focus in all boardrooms. The combined effect of advanced technologies – mobile, cloud, AI, IoT, Analytics is redefining and revolutionizing business and society. Digital Transformation provides Industry with unparalleled opportunities for value creation. It used to take Fortune 500 companies an average of 20 years to reach a billion dollar valuation; today's digital start-ups are getting there in fore. The 2016 CII IQ National Quality Summit will discuss and highlight the way businesses across industries are adapting and adopting digital transformation and building ecosystems to create value both within the organizations and externally for consumers and society at large. McKinsey & Company, India, the Knowledge Partner for the Quality Summit will release a White Paper on Quality through Technology.

CII - EXIM BANK AWARD FOR BUSINESS EXCELLENCE 2016

The Business Excellence Award 2016 will honor companies that are shaping the future of global manufacturing and making them world-class, cost competitive and sustainable. Business Excellence has a major impact on competitiveness and performance, benchmarking and learning from best practices to become the way of working. While Awards are important, they are for recognition and not the prime motivator for the majority of companies.
