SECURITY ADVISORY

-
- **Threat of possible Vehicle Borne Suicide attacks in Kabul city and presence of insurgents**
-

Details

This is in continuation of our earlier Security Advisories.

2. Fresh information indicates that there is a renewed threat of possible Vehicle Borne suicide attack in Kabul city against high value targets. A White Town Ace or a Grey Toyota Corolla vehicle can be used as VBIED in Kabul and one will be deployed in Wardak province.

3. Information further indicates that three/four more Vehicle Borne IEDs (Toyota Corolla White/Black) are reportedly moving around in Kabul city and may carry out suicide attacks against high value targets between Masood Square-Jalalabad road and on the Kabul International Airport Road. Input also indicates that a large quantity of rockets have been relocated to Kabul and may be aimed at the Kabul International airport. Presence of suspects insurgents disguised in Afghan National Army uniforms and armed with heavy weapons was also observed in the suburbs of Kabul.

4. In view of the above information, all Indian nationals residing in Kabul as well as other parts of Afghanistan are requested to remain extra vigilant during their movements in the city. Avoid public places such as bazaars, restaurants and crowded areas and constantly change your route/timings within the city so as to not form a pattern of movement. Keeping a safe distance from International Military/ANA/ANP convoys is again reiterated, as they continue to be a target of militants.
