

**Embassy of India
Kabul**

KAB/815/2009(45)-

November 12, 2009

-
- Threat from AGE
-

According to some inputs it highly likely that AGE will plan to conduct some form of spectacular attack in the City in the run up to the inauguration of President KARZAI on November 19. Threat reporting remains high although still lacks details and remains incoherent to some degree. In the build up to the inauguration, ANP are likely to increase security infrastructure in the City with vehicle stop and search operations increasing. Movement within the City over the next ten days is likely to become progressively limited and at a standstill on the day itself.

2. It is advised that Special vigil be maintained during the coming period and from time to time road movements without security components may please be avoided. It is suggested that you may avoid moving in the crowded area, market, places near the foreign establishments in the Kabul and other cities. Indians in Afghanistan should always move in pair or group. In case of any eventuality, your companion can report the incident to the concerned authorities. It is also advised to constantly change your routes, timings within the city so as not to form a fixed pattern of movement. Awareness of prevailing security scenario via local visual/print media as well as their counter-action with fellow colleagues is also suggested.

**(Manmohan Singh)
Counsellor (PA)**
